

## COUNTY SUPERVISOR, 1ST DISTRICT

### **LOU CORREA**

**OCCUPATION:** Member of the California State Assembly

I grew up in Orange County. Today, I am raising my four children among the very same friends and neighbors that I grew up with. I meet often with residents like you and I listen carefully.

On the Board of Supervisors, I will use my experience and understanding of our neighborhoods, to improve our quality of life and keep our streets safe.

Orange County gets less than 11 cents back for every dollar we pay in property taxes to the state. I'll continue fighting to bring more money back, which will help reduce the county debt and increase critical services like public safety and healthcare.

As a State Legislator, I am proud of my work on your behalf. I've secured funding for projects in Orange County, including:

The expansion of the 22 (Garden Grove) Freeway  
Pedestrian safety  
Playground equipment TrackERS (criminal database)  
Orange County's New Forensic Lab  
Community centers  
Parks

I am proud to be endorsed by many, including:

Supervisor Chuck Smith  
Westminster Mayor Margie Rice  
Santa Ana Mayor Miguel Pulido  
Orange County Professional Firefighters Association  
Association of Orange County Deputy Sheriffs  
Garden Grove, Santa Ana and Westminster Police Officers Associations  
Southern California Alliance of Law Enforcement  
Doctors of Orange County PAC  
Nurse Practitioners  
Many of our neighborhood teachers

As a State Legislator, I helped residents fight for safer streets and communities. I expanded the use of DNA to help convict violent sex predators and rapists. My work has earned me "legislator of the year" by:

Crime Victims United  
California Sexual Assault Investigators Association  
Peace Officers Research Association of California  
California Coalition of Law Enforcement Associations  
Golden State Mobile Home Owners League  
California Coalition of Nurse Practitioners  
California District Attorneys Investigators Association's  
"2004 Legislative Leadership Award"

I worked with patients to support their efforts to get better healthcare. I voted to reform Health Maintenance Organizations (HMOs) and will continue to fight to make healthcare more accessible.

Because I helped cut taxes on small businesses, the California Small Business Association named me legislator of the year.

Finally, and most importantly, I've worked hard for public education, earning me the Superintendent's Bravo! Award, for education leadership.

It's been an honor and privilege to represent you in the Legislature during very difficult economic times.

No one will work harder for you. I respectfully ask for your vote for Orange County Supervisor.
